Prizes

Overall winners, plus a prize for every track

Tracks: AI · Cybersecurity · Hardware · Best Beginner Hack

About GullHacks

GullHacks is a 36-hour hackathon run by Salisbury University students. Hackers build software and hardware projects in four tracks: AI, cybersecurity, hardware, and best beginner hack.

WHO COMES

About 250 students from Salisbury University and other schools on the Delmarva Peninsula. Roughly 40% are first-time hackers.

WHY SPONSOR

Sponsors meet students early, see what they can build in a weekend, and get their name in front of the next class of engineers.

Event Budget

Where sponsor money goes

GullHacks_2026_Budget.xlsx
